Recovery College Cornwall

WELCOME TO OUR COLLEGE

Pentreath is a Cornish Charity working with individuals experiencing and recovering from emotional and mental ill health challenges. We were formed by Cornwall and Isle of Scilly health authority in 1991 as part of the community shakeup which saw the deinstitutionalization of mental health care in the UK.

With over 30 years' experience in supporting people out in their communities and finding tools and techniques to support and aid recovery Pentreath have vast experience in utilising group work and education to help support people to achieve improvements in their mental health and wellbeing.

Just before Covid struck, and in partnership with a consortium of mental health providers we developed Cornwall's first ever Recovery College. As funding has changed this is now exclusively run by Pentreath and we have a dedicated team of trainers who can help you to identify and manage your mental health challenges allowing you to live the life you want. We currently offer courses via Microsoft Teams and/or Face to Face to any person over the age of 16 who live in Cornwall.

Recovery College Cornwall

OUR RCC COURSES:

ANYONE WHO IS OVER 16 AND LIVES IN CORNWALL, CAN ENROL ON ANY COURSE. THE COURSES ARE FULLY FUNDED, REGARDLESS OF EMPLOYMENT STATUS AND YOU DO NOT NEED ANY PRIOR QUALIFICATIONS TO ATTEND.

All RCC Courses are co-produced with both our students and peer mentors with lived experience of poor mental health.

Our trainers deliver courses within communities across Cornwall. We also offer online courses. Our courses run during the day and the evening, if required.

Our courses are, also, co-delivered by a volunteer peer mentor who has previously completed our courses.

Course timetable with dates can be found on the website:

BESPOKE COURSES**

WITH:

ART FOR WELLNESS (BEN KING)

1/2 DAY COURSE PER SESSION

VENUE: HARRISON HOUSE, THREEMILESTONE INDUSTRIAL ESTATE, TRURO, TR4 9LF

Sessions:

Session 1:

Reflective drawing. This will be a life drawing lesson with an emphasis on self-reflection. Looking at things for how they really are rather than what we think they should be. Have you ever wondered why hands are so difficult to draw? Perhaps it's because we become blind to things, we see every day.

Session 2:

Go with the flow and relax with watercolour. Take some time to be present and watch how the water and colour soak into paper. Learn how to build shapes using your imagination.

Session 3:

How to build layers of resilience using acrylic. Basic painting techniques of how to start a painting with an emphasis on resilience. Part of painting is about exposing vulnerabilities in order to grow. The wonderful thing about acrylics is that you can always paint over your mistakes and try again.

OTHER COURSES:

CAPTURING THE CALM – USING PHOTOGRAPHY FOR MINDFULNESS (LISA WILLIAMS)

1/2 DAY COURSE

VENUE: HARRISON HOUSE, THREEMILESTONE INDUSTRIAL ESTATE, TRURO, TR4 9LF

HEALTHY RHYTHMS: AN INTRODUCTION TO MUSIC THERAPY (CHRIS BARON)

Everyone has the ability to create and respond to music it's a universal language and its in our DNA. There's no need to 'be musical' or know how to play a specific instrument to participate. We work with your natural musicality to provide appropriate, sensitive, and meaningful interactions using PANArt instruments. There's no teaching or fixing here; we will make improvised music together as equals, and you'll discover your own musical language and learn how music can support emotional regulation and self-expression

1/2 DAY COURSE

VENUE: HARRISON HOUSE, THREEMILESTONE INDUSTRIAL ESTATE, TRURO, TR4 9LFT

Sessions:

Session 1:

PANArt. PANArt Hang instruments offer themselves as a common denominator, as a universal language to which everyone has access. We will explore and play collectively, you only need a small contribution from the individual player to create a complex network of sounds together, always carried by the pulse, the bass. We will use this connection to facilitate positive changes in emotional wellbeing and communication through the engagement in live musical interaction.

Session 2:

This is your Brain on Music. We've all felt music's potency, how it unlocks feelings and memories and brings us together. It's a universal language, a mode of communication. Working in a small group we will learn about the fascinating relationship between music and the human brain and create a platform to express ourselves and share a connection.

Session 3:

The Social Power of Music. Music can bring people together and create a sense of community and shared identity. It's not just an art form but a vital social force that can unite people struggling in their communities and drive social progress. This communal aspect of music can be seen in various settings, from concerts and festivals to religious ceremonies, social gatherings and music wellbeing groups. As we play together in a small ensemble this can lead to greater emotional understanding, and empathy among others.
